Section 2 – Applicant Product Description

Manufacturer eDR Solutions LLC
Product Name eDR Hard Disk Crusher

Description of Product Action.

The operation of the eDR Hard Disk Crusher will destroy a HDD in such a manner that the motor (spindle) is inoperable, casing is destroyed and the disks (platters) are rippled, stretched and torn.

Best practice guide for product usage. (Please enclose any manuals)

Attachment A – Instruction Card for Set-up and Operation

Attachment B – Instructions for Care and Maintenance

Section 3 – The Claim

A hard disk drive will be destroyed in less than 15 seconds to the extent that any data contained on it is unrecoverable (Risk Level 4 on the Threat Matrix).

I Helen Fouche of eDR Europe confirm that the information outlined in this document is an accurate and true reflection of the claims made by our product wishing to undergo the ADISA testing method.
